1. **Culture, Arts, Tourism and Community Heritage (CATCH) Grants Program**

The CATCH program was established in response to the identified need for an independent and flexible source of funding, to support worthwhile activities in the areas of culture and tourism, the arts, history and heritage across rural and remote Australia. Activities which enrich the life of rural and remote communities are often centred on arts and culture, history and heritage and public tourism. This program aims to meet this need.

Not-for-profit community organisations can apply for projects and activities that offer clear public benefit for communities of less than 10,000, living in small rural and remote locations in Australia, contributing to their development in social and community welfare, economic, environmental, health, education or cultural areas. These may include capital items, equipment, extension programs to remote areas, events and activities which have a demonstrable economic benefit to the community, and intergenerational activities.

4. International Oral History Conference, Spain

Call for Papers: IOHA Meeting in Barcelona

Power and Democracy: The Many Voices of Oral History, XVIIIth International Oral History Association, Barcelona, Spain, 9-12 of July 2014

The International Oral History Association will hold its next meeting in Spain at the University of Barcelona, July 9-12, 2014 (master classes will be held on July 8). Its theme will be Power and Democracy. The force of democracy as well as the resistance it has met have prompted oral history projects around the world. Interviews with advocates of change have supplemented and supplanted archives of discredited regimes. Oral histories have documented social and political upheavals, reform movements and reactions. Oral histories have revealed the effects of power relationships that exist between citizens and their governments, workers and employers, students and teachers, and the layers within institutions, communities, and families. As a democratic tool, oral history records and preserves the memories, perceptions, and voices of individuals and groups at all levels and in all endeavours, but that raises questions about what to do with these interviews and how to share them with the people and communities they reflect.   Power and democracy will be the theme of the IOHA's meeting in Barcelona, with the sub-themes:

Archives, Oral Sources, and Remembrance
Power in Human Relations
Democracy as a Political Tool
Oral Sources and Cultural Heritage
New Ways to Share Our Dialogue with the Public
